Criteria Required as Evidence

- ❑ The category you are applying for does not require a formal assessment visit as does the installation and other practical areas of work that CAI members undertake.
- ❑ What we require is as much of the following listed below as you can furnish to support your claim of expertise. We have 2 columns on the right side of the following table in the form of a checklist that enables you to confirm you have included the necessary evidence in your application. (Attach copies of any formal qualification certificates you may have).
- ❑ You need to put all the evidence together and cross reference this against your checklist by numbering evidence sheets or pages.

Supporting Evidence Required

Evidence	Check - Tick	Page / Reference
1. Full details of your practical experience in advisory, planning, conciliation or arbitration services.	☐	
2. Any technical experience relating to past employment or business activity.	☐	
3. Actual qualifications relating to the field of expertise in the aerial, satellite, signal distribution or telecommunications industries.	☐	
4. References from clients for completed work	☐	
5. Any witness statements supporting [4] above	☐	
6. Any other supporting /supplementary evidence that helps your application or can be further cross-referenced to any of the above. [1 – 4]	☐	

Please Sign below as declaration that all the information given is correct.
